

### Projet final

Avec un partenaire, vous allez créer une compagnie de vêtement. Vous allez créer votre propre marque, logo et collection. Vous allez présenter deux ensembles de votre collection.

#### Voici les critères :

- Create a **brand name** and a **logo** for your clothing company.
- Using **prepositions** and locations, describe where the brand is founded and available.
- Create **four** outfits from your clothing line.
- Each outfit must include **three** pieces:
  - ⇒ one piece of “bottom” clothing (i.e. pants, skirt, shorts...)
  - ⇒ one piece of “upper” clothing (i.e. shirt, blouse, jacket...)
  - ⇒ one accessory (i.e. earrings, shoes, hat...)
- The description of **each** clothing item must include **two adjectives (or one adjective and one fabric / style)**.  
*Par exemple: Cette belle jupe en coton.*  

#1
#2
- You must also use **demonstrative adjectives** to describe these items.
- Finally, you must provide a reason explaining why you like each outfit. Include at least **two reasons** per outfit.

#### Présentation :

- **Each** partner must describe one outfit from their clothing line and then explain *why* they like that particular outfit.
- You have two choices for your presentation:
  1. You can wear your outfit and present it on the “runway” in class, **OR**  
*If you choose this option, you do **not** need to buy anything – use clothing you have at home*
  2. You can create a poster or PowerPoint to present your outfits.  
*If you choose this option, please do not include your sentences on your poster*

You must pick only **one** option. Therefore, if you choose to wear your outfit,  
 you do not need to create a poster.

Your final project consists of two parts:

1. The presentation of your collection to the class, and
2. A typed copy of your sentences. Hand-written sentences will not be accepted.

**Both** are due the day of the Final Project: \_\_\_\_\_

On the reverse side is a planning guide for the written and presentation components.

\*\*\*Make sure to double-check the agreement between all nouns and their adjectives, as well as their spelling.\*\*\*
